

Optical Imaging in Neurosurgery 2024

Saturday, July 13, 2024 | 8:30am - 5:00pm | Boston, MA

The Optical Imaging in Neurosurgery Meeting is a gathering of optical imaging experts and neurosurgeons who share a common goal of improving visualization in surgery. This event aims to function both as a showcase of cutting-edge optical imaging technologies and a forum for addressing unmet clinical needs that could potentially be solved by optics-based methods. Through presentation and organized discussion, this meeting seeks to bridge the gap between technological advancement and clinical requirements.

Course Co-Directors
Danielle Harper, PhD
Pablo Valdes, MD, PhD

Accreditation

In support of improving patient care, Mass General Brigham is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Statements

AMA PRA Category 1 Credit™
Mass General Brigham designates this live activity for a maximum of 7 **AMA PRA Category 1 Credit™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Learning objectives

Upon completion of this activity, participants will be able to:

1. Describe the latest advances in optical imaging that are suitable for neurosurgical applications
2. Identify current unmet needs in neurosurgical visualization
3. Recognize challenges associated with clinical translation of optical tools in neurosurgery.
